OUR VISION & MISSION

GIRINA

VISION

To be the leading heavy equipment spare parts and solutions company in Indonesia, renowned for delivering high-quality products, reliable services, continuous innovation, and a strong commitment to sustainable industrial development.

MISSION

1

Provide high-quality heavy equipment spare parts at competitive prices.

2

Build a strong supply chain network to ensure timely and accurate availability of products.

3

Establish long-term partnerships with customers, vendors, and business partners based on trust and professionalism.

4

Deliver responsive service and the best technical solutions to meet customer needs.

5

Develop the company sustainably and with integrity to support industrial growth in Indonesia.

MACHINE COMMANDER

GIRINA

Machine Commander is an AI-powered fleet management system that digitalizes and optimizes heavy equipment operations. By integrating the Wireless Smart Terminal, Wireless Fuel Sensor, and a cloud-based platform, it connects machines, personnel, operations, and maintenance through a centralized dashboard.

A smart wireless device that serves as the central hub for real-time heavy equipment monitoring and data collection. With no wiring or drilling required, it tracks machine location, working hours, and operational status while transmitting data to the cloud for more efficient fleet management.

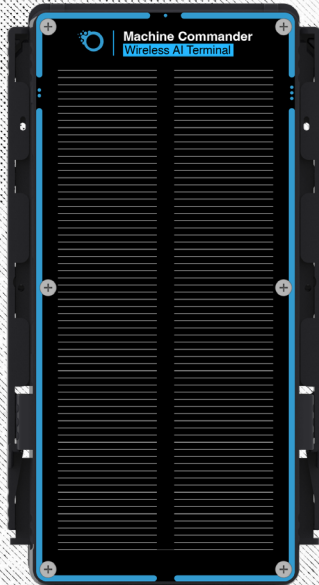

A wireless fuel monitoring device that accurately tracks fuel levels, refueling activities, and fuel consumption in real time. Equipped with anomaly detection capabilities, it helps prevent fuel theft and leakage while supporting better fuel cost control.
